Your benefits as a member

—o Accelerate Sustainable Growth for Your Business o—

Your contacts for project and sale activities in Photonics and Machine Vision.

Introduce you to partners and customers with your knowledge & products.

Access to international business events and conferences.

Use our training services to enhance technology and business knowledge.

Socialize with personel and business contacts in our worldwide community.

You will receive access to up to date presentations and documents.

Use our digital services and our network of competent media partners.

Participate in funded innovation, research and development projects.

„SpectroNet as platform gives opportunities to create new relations with partners, customers and learn about new developments“
– Dr. Oliver Pust, DELTA

Meet the People in Photonics & Machine Vision.

Who we are

International Collaboration Cluster

SpectroNet's intention is to bring together photonics and machine vision in a professional, methodical and social way for the development and application of new measurement technology for quality assurance.

SpectroNet was founded in Jena (Thuringia) in 2005, it's headquarter is located in the Technologie- & Innovationpark Jena and stands for the initiation of innovation, research and development projects.

The SpectroNet project team support the preparation, implementation and evaluation of business events and it can be used as an extended marketing tool by its members.

The SpectroNet project team actively supports the members in their sustainable growth and provide adapted services.

Contact us via social media:

„SpectroNet is also doing a great job with putting everything online for later use"
– Agnes Hübscher, EDMUND OPTICS

Services

Enhance Your Collaboration

Consulting
project and partner acquisition, submission of project proposals

Advertising
newsletter, banner, social media, blogs, event calendar, news

Events
conferences, meetings, networking, match-making, get-together, B2B and B2C

Academy
practical workshops, interactive seminars and hands-on-trainings

Job Portal
publish job vacancies, assistance the recruitment of experts

Media Library
presentations, reports, surveys, pictures and videos

Digitalization
fairs, congresses, workshops, forums, discussion groups, partner and customer events

Trend Scouting
markets, technologies, digitization, economy and science

„For us it is a way to network with the companies in the region and internationally"
– Kevin Jensen, AMS

Become a member

Join the Cluster

For our members we offer initial contacts, extended marketing, advertising, recruitment of experts, knowledge transfer, premises and digital platforms to support collaborations between members, partners and customers.

For the photonics and machine vision industries we offer open technical and factual content of key events that can be linked, integrated and shared.

Member category	Membership fee[1]
Premiumpartner	2.700 EUR
Partner	900 EUR
Micro-companies[2]	450 EUR
Universities & others	450 EUR
Start-Ups[3], entrepreneurs & individuals	225 EUR

1 - Prices in addition of the legally applicable value added tax each to the appointments of 30.06. and 30.09.
2 - less than 10 employees.
3 - Start-up, not older than three years from date of foundation.

Funded by:

Freistaat Thüringen – Ministerium für Wirtschaft, Wissenschaft und Digitale Gesellschaft

Supported by:

Technologie- und Innovationspark Jena

„During the SpectroNet Collaboration Conferences you get a good overview about a broad spectrum of technologies in photonics"
– Prof. Dr. Bernd Jähne, EMVA
